New DBE Sanctions

NOTICE TO BIDDERS

The Idaho Transportation Department (ITD) has requested through the Federal Highway Administration (FHWA) proposed changes to the ITD Disadvantaged Business Enterprise (DBE) Plan and ITD Civil Rights Special Provisions.

These proposed revisions pertain to a significant change in sanctions currently in use for non-compliance with DBE requirements. ITD anticipates implementing the proposed changes, as shown below in legislative format, immediately once FHWA approval is received.

You may access the current ITD DBE Plan by going to:

www.itd.idaho.gov/civil.

If there are questions regarding the proposed revisions, please contact Julie Caldwell, EEO

How Can There Be DBE Sanctions without DBE Goals?

In the January issue of *The DBE News*, we discussed how due to a Ninth Circuit Court of Appeals decision pertaining to the DBE Program, ITD will be using only race/gender-neutral methods of obtaining DBE participation on future federal-aid projects. In other words, ITD will set no project-specific DBE goals in the immediate future.

This situation will continue until ITD commissions and receives the results of a disparity study determining whether DBEs have equal access to government contracting opportunities compared to non-DBE firms, and if any disparity in access is the result of discrimination in this state.

However, this decision is not retroactive. Pro-

(Continued on page 4)

Contract Compliance Officer at (208) 334-8458.

ITD DBE PROGRAM PLAN

D. SANCTIONS

(c) If violations persist, the Resident/Regional Engineer, in coordination with the District Engineer and the CCO develop a proposed course of action. After consultation with the EEO Manager and legal counsel, the Resident/Regional Engineer may take any of the following actions, as provided in the contract:

- Continue to withhold progress payments until the contractor is in compliance;
- Suspend the

(Continued on page 3)

The Disadvantaged Business Enterprise (DBE) Supportive Services Program is designed to assist minority, women and disadvantaged business owners in developing and promoting their businesses in the highway construction industry. It was created by the U.S. Department of Transportation and is administered by the Idaho Transportation Department with the funding and oversight of the Federal Highway Administration. Any concerns regarding the administration of this program should be directed to Julie Caldwell, EEO Contract Compliance Officer, or Karen Sparkman, EEO Manager, at the Idaho Transportation Department.

Where in Idaho is this? Hint: This geologic feature is the center of the Nez Perce Tribe creation story by which Coyote slew a monster, and called into existence The People--Nimiipuu. [Answer to the February Issue: **US Assay Office**, in Boise.]

Spokane SBDC

The Washington Small Business Development Centers (SBDCs) are generally staffed by only one person, with 21 offices across the state. (This differs from Idaho, as we have seven fully staffed offices across the state.)

One of the Washington SBDC offices is in Spokane, just across the border of Idaho into Washington, and easily convenient to North Idaho firms.

Vision:

In both urban and rural Washington, owners of existing or prospective businesses turn to the Washington SBDC for expert assistance, and for information

By Debby McCarthy
DBE Assistant

about emerging business technologies.

When clients' sales increase, and employment is stabilized or increased, when new external funding is found, the impacts radiate throughout the community and region.

The Washington SBDC's high quality, innovative and resourceful programs is recognized at both the state and national levels. Key to the Washington SBDC successes is the network's culture of excellence and the collaboration occurring among members

of the network, our stakeholders and partners.

Meet the Staff at the Spokane office:

Rick Thorpe:

Rick joined the SBDC as a Business Development Specialist in 1997. Prior to that date, Rick had had a wide range of experience in the business world.

He and his wife were the founding partners of one of the largest privately-

owned manufacturing companies of its kind in the Northwest. After selling the company, Rick took several years off to research leading-edge business models and management strategies, as well as to play a little golf.

Rick holds a Bachelor's Degree in Applied Psychology from the University of Oregon and a Master's Degree in Business (MBA) also from the University of Oregon.

He has been certified by the National Business Forms Association as a Business Consultant and by the WSBD as a business counselor. He has a strong

DBE Update

To see our complete DBE Directory, visit on-line at:

www.itd.idaho.gov/civil/dbeforms.htm

This listing is updated to our website on the first Monday of every month.

The full "hard copy" version of our DBE Directory is published quarterly; it will next be published in mid-April.

If you would like to be on the mailing list for these, please contact DBE Supportive Services.

(SPOKANE SBDC, Continued from page 2)

background as a "turn around" specialist and in contract negotiations.

Rick is Washington's 2000 Star SBDC Performer. His areas of specialization is turn-around analysis, finance, negotiations, buying and selling a business, business analysis and long-term planning, marketing, implementation of lean manufacturing programs.

Terry Chambers:

Terry joined the SBDC as a Business Development Specialist in 2005. He worked previously for the SBDC ten years ago in Spokane. In the ten years that he has been gone he has worked in technology commercialization, as a venture capitalist, and owns his own import/export business.

Prior to that, Terry's experience included a wide range of positions in the business world. He has worked for a number of years in high-tech product and program management where he developed and took several products to market. He has also managed sales support division, an international service department and operations departments including field service.

Much of his professional career was based on gaining the extensive knowledge required to become a successful VC where he could help to make his investments successful. His experience with the venture fund combined with as-

contract, in whole or in part, until the contractor is in compliance. No progress payment is made during this time and no time extension made;

- Cancel or terminate the contract for cause as authorized under Section 108.08 of the Contract Specifications;
- Assess against the contractor's final payment on this contract or any progress payments on current or future Idaho Federal-Aid projects ~~an administrative remedy by reducing the final payment or future progress payment in an amount equal to 10% of this contract or \$7,700 whichever is less.~~ amount equal to the value of the DBE committed work items that were not performed by the committed DBE firm. However, if the failure is the first by the contractor, and ITD determines that the failure was an unintentional error or oversight, the amount to be deducted may be reduced to one-half (1/2) of the value of the un-obtained DBE participation based on the committed work items. In addition to any other sanctions, willful failure of the contractor or a DBE to comply with this contract or with the Federal DBE regulations may result in disqualification from further contracting, subcontracting, or other participation in Idaho Transportation Department Federal-Aid projects.

ITD CIVIL RIGHTS SPECIAL PROVISION

Part III Disadvantaged Business Enterprise Requirements

9. Breach of Contract/Damages

- (c) If violations persist the Engineer will contact the District Engineer and the EEO Contract Compliance Officer for direction on imposing one or more of the following actions:
 - 1. Withhold all or part of progress payments until it is determined that the contractor is found in compliance.
 - 2. Suspend the contract, in whole or in part, until the contractor is found to be in compliance, with no progress payment being made during this time and no time extension made.
 - 3. Cancel or terminate the contract for cause as

(Continued on page 4)

(DBE Sanctions, Continued from page 3)

authorized under Subsection 108.08 of the Contract Specifications.

4. Assess against the contractor's final payment on this contract or any progress payments on current or future Idaho Federal-Aid projects an ~~administrative remedy by reducing the final payment or future progress payment in an amount equal to 10% of this contract or \$7,700 whichever is less.~~ amount equal to the value of the DBE committed work items that were not performed by the committed DBE firm. However, if the failure is the first by the contractor, and ITD determines the failure was an unintentional error or oversight, the amount to be deducted may be reduced to one-half (1/2) of the value of the un-obtained DBE participation based on the committed work items. In addition to any other sanctions, willful failure of the contractor or a DBE to comply with this contract or with the Federal DBE regulations may result in disqualification from further contracting, sub-contracting, or other participation in Idaho Transportation Department projects.

(DBE PROGRAM STILL IN FORCE, Continued from page 1)

jects already let with DBE goals will continue to be administered as such, with all DBE contract compliance-related requirements in force (and this includes the use of sanctions in cases of non-compliance).

Even projects *without* DBE goals will still be subject to DBE requirements such as Commercially Useful Functions (CUFs).

Also, ITD's overall Annual Participation Goal (APG) of 11% is still active; DBE participation obtained through race/gender-neutral means (that is, use of DBEs in the absence of contract goals) will continue to be tracked and credited towards the APG. Therefore, prime contractors and consultants are strongly encouraged to use DBE firms on all ITD-let projects — not just federally-funded.

The 9th Circuit Court of Appeals decision (*Western States Paving Co. v. State of Washington Dept. of Transportation*), by the way, affects the states of Alaska, Arizona, California, Hawaii, Montana, Nevada and Oregon, in addition to Idaho. States outside of the 9th Circuit of Appeals are not affected, and will continue to administer their DBE Programs as before.

(SPOKANE SBDC, Continued from page 3)

sisting many firms raise angel capital has given him unique skills in equity financing.

Terry is still an owner of the import/export business but he does not operate it on a day-to-day basis. He has a strong commitment to helping businesses grow that has been demonstrated his continued involvement in working with small companies, entrepreneurs, and economic development organizations in the region for over 20 years.

Terry holds a Bachelor's Degree in Business Administration from Boise State University. He is one of only a few BDS's in Washington that are Certified Economic Development Finance Professionals and he also has substantial additional training in economic development and program management.

In order to assist companies who are required to fulfill civil rights requirements on federal-aid contracts/subcontracts in the amount of \$10,000 or more, the Idaho Transportation Department's EEO Office will be sponsoring training sessions at four locations in April.

The training sessions are provided **FREE OF CHARGE**, and will cover information regarding US Department of Labor and US Department of Transportation EEO, Affirmative Action and Veteran requirements on federal-aid projects. In those areas where it is applicable, information on Tribal Employment Rights will be provided. Information will also be presented on the services provided by the Idaho Migrant Council and other organizations within the local area of the training.

*This year will also include an afternoon session of
"HOW TO PROVIDE A DBE GOOD FAITH EFFORT" for those companies interested.*

To pre-register, complete the requested information below and return to:

**Julie Caldwell, EEO Contract Compliance Officer, Idaho Transportation Department,
P.O. Box 7129, Boise, Idaho 83707-1129, or fax to (208) 332-4190**

Registrations should be received by **Friday, March 31st**.

If you have any questions regarding the training, please contact Julie Caldwell at
(208) 334-8458 or Debby McCarthy (208) 334-4442 or e-mail julie.caldwell@itd.idaho.gov

Idaho Legislature 2006

Here are some business-related bills currently in the works. To read the full text of the bills and check their status, visit www.state.id.us/oasis/minidata.html

HOUSE

H0452 Purchasing/bid cancelled/procedure Amends existing law to provide that when an invitation to bid or a request for proposals is canceled prior to the award of a purchase order or contract, the administrator of the Division of Purchasing shall immediately return all bids or proposals to the submitting vendor and those bids or proposals shall not be subject to disclosure under the Public Records Act.

H0497a Sales tax rebate, media production Adds to existing law to provide a sales and use tax rebate for the sales or use of tangible personal property used directly by a media production company in media production; to provide procedures; to define terms; to provide qualification requirements; and to provide for recapture.

H0520 Engineers, license, exam requirement Amends existing law to increase the number of years college or university faculty can teach engineering design without a license; and to exempt certain applicants for licensure as a professional engineer from examination requirements.

H0538 Landscape architects, licenses/fees Amends existing law relating to landscape architects to revise licensure qualifications; to revise examination provisions; to increase examination and license fees; and to provide that the Board of Landscape Architects may recover the actual costs associated with an applicant's review of a failed examination.

H0539 Architect, technical submissions Amends existing law relating to architects to revise the conduct of examinations; to provide for responsible control; to set forth when an architect may sign and seal technical submissions and other work; to require that certain technical submissions be maintained and made available to the Board of Architectural Examiners upon request; to define terms; to permit the use of the title "architect" in certain circumstances; and to prohibit persons from aiding or abetting others in the unlicensed practice of architecture.

H0548 Electrical contractors, insurance Amends existing law relating to electrical contractors and

journeymen to authorize the administrator to revoke or suspend licenses if a licensee fails to maintain required insurance during the term of active licensure; and to set forth provisions applicable to inactive licenses.

H0549 Electrical contractor/license/renew Amends and repeals existing law relating to electrical contractors and journeymen to revise provisions applicable to the duration of licenses; and to delete provisions applicable to the renewal of certain licenses.

H0551 Public Works Contractor/license fees Amends existing law to revise the public works contractor licensing fees.

H0553 Vocational apprentice training prgm Amends existing law relating to vocational apprenticeship training programs to require the Idaho Electrical Board, the Idaho Plumbing Board and the Idaho Heating, Ventilation and Air Conditioning Board to establish by rule the curriculum to be used in apprenticeship training programs, the qualifications necessary to attain journeyman status and such other qualifications deemed necessary by the board.

H0733 Electrician/plumber/HVAC, bonds Amends existing law relating to contractor licensing to require license applications for electricians, electrical contractors, master electricians, specialty electricians, specialty electrical contractors, plumbing contractors and heating, ventilation and air conditioning contractors and specialty contractors to be accompanied by a bond; to set an amount for the bond; to provide terms and conditions; to require such applications be accompanied by proof of liability insurance; to set an amount for the insurance; and to require such applications to be accompanied by proof of worker's compensation insurance, if applicable.

SENATE

S1349 MV, commercial, speed limits Amends existing law to delete the maximum speed limit on the interstate highways for vehicles with five or more axles operating at a gross weight of more than twenty-six thousand pounds.

Nez Perce TERO Increases Fees

The Nez Perce Tribe has increased its TERO fee from 1.5% to 2%, effective January 24, 2006. Please note that any projects let on the Nez Perce reservation as of January 24, 2006 will be subject to the new 2% TERO fee. Projects that were bid in 2005 will be subject the prior 1.5% TERO fee.

This is only the second time that the Nez Perce Tribe has increased the TERO fee since the establishment of the original TERO fee of .5% in 1978. The first increase was in 1995 when the TERO fee went from the original .5% to 1.5%. Questions regarding the increase can be directed to Muriel Slickpoo, Nez Perce TERO Director, at (208) 843-7363.

NAWIC to Offer CIT Program

The Spokane Chapter of NAWIC (National Association of Women in Construction) is pleased to offer its Construction Industry Technician (CIT) program. CIT represents an overview of the construction industry and its processes.

Lessons to be covered include such subjects as type of construction, forms of business ownership, contractual arrangements, contract documents, and the construction process. The Construction Industry Technician is a self-paced, home study program. Passing an examination at the end of the course establishes mastery of the material and upon successful completion of the program, the participant will receive the Construction Industry Technician Certifications.

NAWIC will be scheduling monthly group study sessions for all those participating. For more information, please contact Pam Keller at pam@burtonconstruction.net

SBA National Native American Affairs Director Appointed

The US Small Business Administration (SBA) announced on February 27 the appointment of William H. Largent, an experienced small business owner, as national director of the SBA's Office of Native American Affairs.

Largent will be responsible for coordinating and directing SBA programs within the Office of Native American Affairs, under the Office of Entrepreneurial Development,

(Continued on page 8)

(NEWSROOM, Continued from page 7)

to promote and enhance small business services and opportunities for Native Americans, including reservation-based Native Americans and tribal governments.

"The SBA is pleased to have William Largent join the agency to head up such an important role," said Hector V. Barreto, SBA Administrator. "His accomplishment as an entrepreneur and as a strong supporter of economic development and growth for Native Americans makes him a great asset to the agency."

Largent has 30 years of experience leading and managing small businesses, including nationally franchised organizations. His entrepreneurial career began at age 21 when he started his first business, D&L Janitorial on the Keweenaw Bay Indian Reservation. Largent, of Ojibwa origin, is a member of the Keweenaw Bay Indian Community and a board member of the Native American Business Alliance (NABA). Largent served as co-chairperson for NABA's annual conventions from 2001-2003.

Prior to his appointment, Largent was president and CEO of the Dibaa Group, Inc., a customer relations management consulting and fulfillment company providing business process review, strategic alignment and hardware/software solutions that offer companies greater insight into customer preference, expectation and buying needs.

What is the Office of Native American Affairs?

www.sba.gov/naa

The Office of Native American Affairs is located in the SBA's headquarter offices in Washington, DC. Its goal is to promote and support Native American entrepreneurs. The office engages in numerous outreach activities including tribal consultations, development and distribution of promotional materials, attendance and participation in national economic development conferences.

New Idaho Basque Plates Now Available

A new license plate that will honor Idaho's Basque heritage and raise funds for the Cenarrusa Center for Basque Studies is now available at county auto licensing offices.

The plate features a camp/sheep wagon. The first Basque immigrant shepherders lived in camp wagons during their long stays in Idaho's mountains. The lower center of

the plate reads Basque. The background is Idaho's standard red and blue mountain license plate artwork.

The initial cost for the plate is \$35. That price drops to \$25 when the plate is renewed. These fees are in addition to annual vehicle registration, county and plate fees. The Cenarrusa Center for Basque Studies will receive \$25 for each new plate and \$15 from annual renewals.

Founded in 2003, the Cenarrusa Center for Basque Studies is a joint project among educators, business leaders and cultural groups that offers educational programs to those interested in Basque studies.

The plates can be personalized with up to five letters or numbers for an additional \$25 the first year and \$15 for renewals. Applications for personalized Basque plates are available at county auto licensing offices or for download on-line at itd.idaho.gov/dmv

Sample versions of the Basque plates can also be purchased from the Idaho Transportation Department for \$30, \$20 of which goes to the Cenarrusa Basque Center fund. Sample plates can be personalized at no additional cost. These plates cannot be displayed on motor vehicles.

Applications for sample plates are available at county auto licensing offices or for download on-line at itd.idaho.gov/dmv.

The new Basque license plate may only be displayed on passenger vehicles, light trucks with a gross vehicle weight of up to 26,000 pounds, motor homes, and camper trailers (excluding horse, car, and cargo trailers with RV facilities).

Tales from the OIG

Guilty Plea in Philadelphia DBE Fraud Case

On March 2, Terry Crockett, owner/operator of Terry F. Crockett Architects (a certified DBE), pled guilty in U.S. District Court in Philadelphia to charges related to a corruption scheme involving FAA-regulated airport advertising contracts at Philadelphia International Airport. Crockett was one of four people indicted in February on charges of conspiracy, mail fraud, and wire fraud in a corruption scheme involving approximately \$15 million in FAA-regulated concession contracts awarded by the City of Philadelphia for advertising at the airport. Crockett admitted to using his company as a conduit for \$30,000 in contributions to a political action committee which supported, among others, the mayor of Philadelphia. No sentencing date has been set. This continuing investigation is being conducted jointly with the FBI.

Contractors: Are You Registered? February Key

All Idaho Contractors must be registered as of January 1.

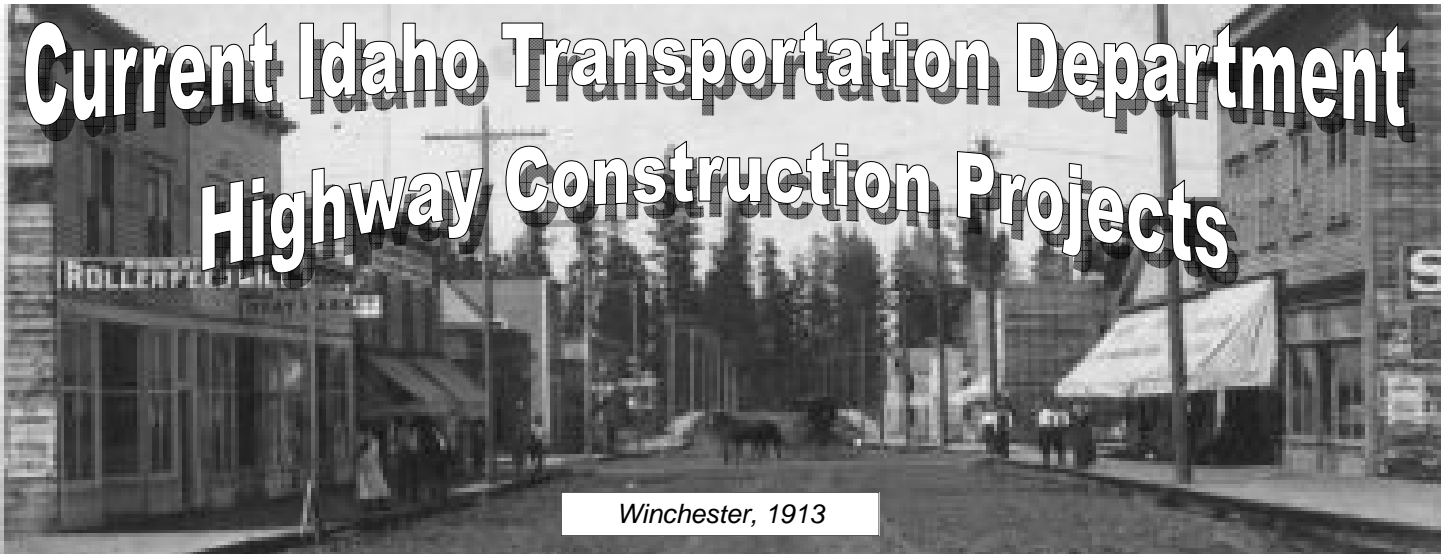

What happens to you if you're not exempt & don't register?

- **No Building Permits**
- **No Lien Rights**
- **No Contract Rights** - You lose your right to sue to collect money for your work under any contract for which you were required to be registered.
- **Misdemeanor** - Upon conviction, each violation shall be punished by a fine of no more than \$1,000 or by imprisonment in the county jail for a term not to exceed 6 months, or by both.

Visit the Idaho Bureau of Occupational Licenses website at www.ibol.idaho.gov or call (208) 334-3233 for more information.

Current Idaho Transportation Department Highway Construction Projects

Winchester, 1913

For the quickest, most complete notification of these projects as they are put out for bid, visit ITD's "Contractor Information Page" at www.itd.idaho.gov/design/contractors/contrinfo.htm

This excellent resource features *Notice to Contractors*, which alerts you to all upcoming federal-aid and state highway construction projects let through ITD, and list specific details and quantities, the names of resident engineers, and a

brief description of the work to be performed.

Also included is: *Quarterly Bidding Forecast*, *Planholder Lists* (updated daily), *Bid Result and Bid Abstract Information*, and *Contract Award Information*.

Best of all, this information is **FREE** on the Internet.

However, if you don't have Internet access, you can also subscribe to ITD's **Notice To Contractors** by calling (208) 334-8430 (1-800-732-2098 within Idaho). There's an annual \$40 fee to cover postage fees.

Certified DBEs are encouraged to call DBE Supportive Services at (208) 334-4442 for free ITD Plans & Specifications if interested in bidding as a subcontractor.

Limit of ONE set of plans per project per DBE firm.

KEY #	PROJECT NAME	BID DATE	COUNTY	DESCRIPTION	DBE GOAL

February is Women's History Month

DR. MINNIE HOWARD, an early (1902) Pocatello physician, practiced medicine with her husband and raised four children, all of whom also became doctors as well. She founded a Carnegie library in her community, organized major regional art and history programs, and worked to preserve the history of Fort Hall and the Oregon Trail. Presumably she found some time to sleep occasionally!

Dr. Minnie Howard (1872-1965)
